#### New CBC FM Frequency for Edgewood, Fauquier and Areas

With the sponsorship from Columbia Basin Trust (CBT), Canadian Radio-television and Telecommunications Commission (CRTC), Canada Broadcasting Corporation (CBC), Spectrum and the expertise of D.E.M. Allen & Associates Ltd, the board members of Edgewood Community Internet Society (ECIS) and members of our community; The society is pleased to announce that as of October 11, 2023, the new **CBC FM frequency** is **CHEW 106.3 FM MHZ**.

The society's charitable status and the most important fact that the society will be re-broadcasting CBC programming in its entirety without any changes; gives us *Exemption order for radiocommunication distribution undertakings* - [Broadcasting Order CRTC 2014-446](#). Simply put the society or the members of the communities will not require to pay a monthly fee to CRTC for operating the new radio channel.

This journey started on October 01, 2022, when there were transmitting issues with the CBC 107.7 FM signal, this was due to outdated equipment and other electrical issues with the transmitting of signal CBC radio in the winter. It is now completed and thank you to all the organizations mentioned above and community members that have helped during the winter of 2022.

Registered charities in Canada perform valuable work in our communities, and Canadians support this work in many ways.
