

# The Edge

## Monthly Newsletter

### Vol.24 Issue 55, February 2009

January was another busy month for us here at The Edge. We received a donation of 20 new computers from Okanagan University College, and with the help of Bill Dummett have been working on getting them set up and networked. Perry Jones, who has worked at The Edge in the past and is now a Network Engineer for Okanagan University College, knew that we are a registered charity and recommended our organization as a very deserving recipient of these computers. We are extremely grateful to Perry for organizing this extraordinary donation, as it has opened up a whole new world of possibilities for us. We hosted our first Internet Training Session here on January 15<sup>th</sup> and our first Photo Cybercamp on the 22<sup>nd</sup>, both of which were a great success. All of the participants were excited to learn various Internet skills and left looking enthusiastically forward to the next month's session. We are very happy to have had such a positive response from the community and will be continuing to host sessions in the future. We will be advertising them on the monthly calendar; please give us a call if you would like to sign up!

## All Roads Lead to Edgewood!

### Seven Habits of Intelligent Communities

Have leaders who convince people there is more to be won than lost from the Broadband Economy

Have ambitions and an appetite for positive action

Do what it takes to get broadband – but don't fall in love with technology

Create sustainable models for broadband, digital education, digital inclusion and Information and Communication Technology innovation

Create and celebrate community champions

Work to build a culture of use for Information and Communication Technology among employers and citizens

Plan for green economic growth
