

The Edge

Community Newsletter

Vol.7 Issue 12, July 2010

Lynx Mobility (co owned by Omniglobe Networks) had the pleasure of visiting Edgewood and the surrounding communities on Apr 8-9th to meet with the directors of the Edgewood Community Internet Society to discuss the possibility of providing cellular services in the communities. We surveyed the region & the existing broadband internet infrastructure and were very impressed by what has been accomplished by the Internet Society to deliver services in the region. What struck us most was the "Get it done" attitude of the entire staff, who work hard to make sure that the people in and around Edgewood have access to reliable and affordable telecom services.

Lynx Mobility prides itself in serving remote and rural communities across Canada. We are in the process of doing our due diligence to determine the viability of providing cellular services in and around Edgewood.

Thank you Lynne Croker & Ashish Duggal

Factors for Building a Successful Community

Community Futures Business Plan Workshop

On Tuesday, June 8th, Kay Ryan presented a Community Futures Business Plan Workshop from 10-4pm at *Whatshan Lake Retreat*. Ten participants attended this workshop making questions and group discussions very thought-provoking and informative.
