## Foundations for the Future

### Overview of findings from the survey

- Feeling of increased empowerment over health outcomes through access to health information
- Access to education provides more learning options
- Better speed means more connection to the outside world – enriching life
- Better access/speed means the capacity to work more efficiently and improve economic situation (jobs created!)
- Lessening of feeling of isolation
- Better access to government services
- No significant reporting of negative impacts

### Each factor influences the others

### What About The Carbon Footprint?

We asked our respondents if they saved trips to town, and if so, how many km. they saved

219 people calculated how many km. they saved

Total of 606,960 km. per year were saved

**Per person: 2,772 km. per year**

**For more information regarding this survey go to:**

### Inonoaklin Edgewood Broadband Phase 2 Completion Celebration was held at the Whatshan Retreat on March 27<sup>th</sup>

Group Photo from the Inonoaklin Edgewood Broadband Phase 2 Completion Celebration.

Sis's Kitchen caterer's Karen Dummett and Judy Hertlein lay out the spread at the Phase 2 Celebration.

We'd like to send out a special thank you to the Whatshan Retreat Society for donating their space for our Phase 2 Completion Celebration. It was a beautiful event with lots of good food and great people. Thanks to Karen Dummett, Judy Hertlein, and Evelyn Collins for all of their help in making the event so much fun for everyone involved.
